### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

1. This office action is in response to the RCE filed 10/31/2007.
2. Claims 1 and 4 were amended.
3. Claims 1-6 are pending in this office action.

***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:  
  
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
5. Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
6. Claim 1 recites the limitation "the destination address" in lines 9-10. There is insufficient antecedent basis for this limitation in the claim. Claims 2-3 dependent on claim 1.

***Allowable Subject Matter***

7. Claims 4-6 are allowed.
8. The following is a statement of reasons for the indication of allowable subject matter: In addition to the remarks filed 02/05/2007 (in relation to the now amended claims), the primary reasons for indicating allowable subject matter is the inclusion in Claim 4 of the following limitations directed towards a media access control unit in at least first and second stations:

" a transmit handler at the second station to transmit on the transmission medium a second frame transmission including information from the first frame transmission other than the destination address, the information from the first frame transmission occupying fewer bits than the destination address but being sufficiently unique to the first frame transmission as to convey that the second frame transmission is a response to the first frame transmission"

a receive handler and processor at the first station to receive the second frame transmission at the first station and to determine that the second frame transmission is a response to the first frame transmission and indicative of receipt of the first frame transmission by the second station."

This subject matter is not found in the prior art nor is it obvious in view of the prior art.
